#### *Sheldon residents mull over express roadway through community*

Published: Tuesday, July 20, 2010 5:09 PM PDT

A 35-mile freeway connector from Elk Dorado Hills to Elk Grove (I-5 Freeway) has one major hurdle, that is how to travel through or around the community of Sheldon.

Sheldon residents have been very vocal in expressing their views on the project. The Southeast Connector would go from Interstate 5 south of Elk Grove to Highway 50 in El Dorado County just east of El Dorado Hills.

The project's timetable would first review and input this fall. In 2011 there would be considering and adopting environmental reports and from 2012 to 2015 determine work and conclude the design. Construction might begin in 2015 with conclusion by 2025.
